FOR IMMEDIATE RELEASE

**Raging Network Services expands consulting operations into San Diego market**

**San Diego, CA, January 25th, 2004** – Raging Network Services, a leading Internet infrastructure consulting company, is proud to announce it's expansion into the San Diego market today. Raging Network Services currently has operations in The San Francisco bay area and Los Angeles.

Founded in 1996, Raging Network Services has been providing networking solutions since the birth of the commercial Internet. The company specializes in system Integration, network design and implementation, and web services development consulting.

“We are looking forward to providing businesses in San Diego the same professional networking solutions that have made our clients in San Jose and Los Angeles so successful.” said Greg Retkowski, founder of Raging Network Services.
